

Route 609 Emergency Management Plan

Fire and Rescue

- Van will be available on the Bay side of the canal - must be capable of:
- Transporting body board and 2 emergency squad crew members.
- Transporting portable pump, fire hoses, and 4 fire fighters.

Security

- Off duty State Police will be hired to patrol the project and the properties during road closures.
- State Police will have use of the van for their patrols.

Communication

- When an emergency call comes in from any of the property owners beyond the project, after the appropriate response person is called, the dispatcher will contact:
 - The off duty State Police officer to alert them to be prepared to provide assistance.
 - The Contractor's representative to be ready to make the transfer.

Contractor's Responsibility

- Provide a method of transporting a minimum of a rescue squad body board and 2 crew members (together) from one side of the canal to the other.
- Make whatever preparations necessary so that once the emergency crew drives up to the project site the transport can be made immediately.
- Provide transport for State Police from one side of the canal to the other as required.
